FOREWORD

The Burrow family's **STARDALE** herd of Holsteins has for many years held a position among the very best in the UK, and by finishing **runner up in the HUK Premier Pedigree Herd Competition in 2021**, it demonstrated that it retains its place among the elite.

The herd has a history of nearly 70 years, having been founded by the late Jim Burrow, a hugely respected figure in Lancashire farming and breeding circles, who passed away in his hundredth year in 2019. For many years he was ably assisted by his son Robert and his wife Kath, who handed the baton of day to day management to his own son James and wife Krisha, following a highly successful herd sale in 2006.

The herd has now grown back up to the extent that the barns at Tunsteads Farm are overflowing with cattle, due in great part to the extensive successful use of sexed semen in recent years, and the decision has been taken to ease matters by selling **the major section of the milking portion, numbering over 200 head**, together with **90 of their most recently born heifer calves at foot**. Only some of the older cows and those not suitable for sale are being retained, and all the herd's very best cows which proved so instrumental in catching the judge's eye in the herd competition are catalogued, including a number of outstanding individuals.

There are **53 Excellent** and **101 Very Good cows** in the sale and a further 47 Good Plus (most of which are heifers with the potential for higher scores as they mature).

Allied to their excellent conformation, the Stardale cows have impressive commercial efficiency. **The current rolling average for 268 cows and heifers is 10,609kg at 4.15% fat and 3.29% protein with a calving index of 390 days. Cell counts are exceptionally low, with the last recording averaging only 55.** The cows are cubicle housed in one group, grazed outside daily from April to October and fed on a TMR ration, consisting principally of grass silage, wholecrop and a protein blend, topped up in the parlour according to yield.

Possibly the most noteworthy feature of the Stardale herd is its tremendous depth of pedigree. It is renowned throughout the breed for its outstanding **Vaakje** family, of which there are more than 120 in the sale. The family traces to Robfel Vaakje 4 and her daughter Robfel Legend Vaakje 7, both purchased at the Robfel dispersal in 1965. They were the foundation of a line of unbroken Excellent and Very Good cows, now stretching to 16 generations. **Stardale Altaiota Vaakje (Ex-95-3)** and her daughter **Crackshot Vaakje 2 (Ex-90)**, **lots 21 & 22**, are two of the sale's features and are the **15th and 16th consecutive generation Excellent**. Many others stretch in to double figures of consecutive Excellents. It is quite remarkable that **more than 600 Stardale Vaakjes have been classified Excellent to date**.

The **Stellas** (over 30 in the sale) have been another tremendous family, while others that have been in the herd for a long time are the **Honeybees** and **Madrigals**. Of more recent origin are families with a Holstein background such as **Adeen, August, Caye, Cosmopolitan, Elegance, Jodie, Lauren, Meg, Millie, Raven, Roxy, Torpedo** and **Vanessa**.

The **Roxy** family is worthy of special mention, originating with the purchase of embryos from the late Alan Swale's phenomenally successful brood cow Bond Haven Dixie Rox (Ex-93-2 84*). Two heifers and the proven sire Stardale Rox Burrow (Ex) were the result, with both cows being Excellent and one breeding the remarkable **Stardale Leader Roxy (Ex-95-7, LP120 65*)**. She was sold in the 2006 Sale for 8,500gs to the Willsbro herd where she bred 8 Excellent and 5 Very Good daughters. At the first Willsbro Sale in 2010, Messrs Burrow paid 12,000gs for a freshly calved daughter by Shottle, who has gone on to be an equally amazing cow, classifying Ex-96-7 and breeding 4 Excellent cows at Stardale. She is still in the herd at 14 years of age, having given over 150 tonnes of milk and is due again in August with her ninth calf. **There are 30 Roxys in the sale (7 Ex & 17 VG)**.

A variety of bulls have been used in building the herd, principally through AI in recent years and the catalogue contains milking daughters of such popular sires as **Applejax, Challenger, Doorman, Fever, Flame, Mogul, Numero Uno, Pepper** and **Unix** among many others. Top genomic sires have been mainly used lately with heifer calves for sale by some of the most popular including **Atrium, Heroic, Lambda, Lighthouse, Redcarpet, Rubels** and **Rubicon**. Others have been used for service and half the milkers are in calf to sexed semen.

The Stardale herd has always had an enviable reputation for breeding quality cattle and through the medium of the Lancashire and Border Counties club sales, many animals, both male and female, have been distributed to pedigree and commercial herds throughout the country with glowing reports received of their subsequent performance. Many top class animals were sold in the 2006 sale, with those sold to Willsbro and to Messrs Downing's Wintersell herd being exceptionally successful (see pages 59 & 119).

In addition to the success in the Premier Pedigree Competition, Stardale have won the Makbar Trophy in the Lancashire County Herd Competition no less than 10 times in recent years. With the herd's outstanding reputation for a combination of pedigree, production and commercial efficiency, this sale of the major portion of the herd is likely to be one of the best events to take place this year and presents a wonderful opportunity for purchasers to acquire cattle out of the very top drawer.

James and Krishna are now assisted in the herd's day to day management by their son Robert, jnr and would like to pay tribute to the help received from the staff, particularly Matt Green and Angela Hartley and the part time staff Sarah Kellett, Darcie Rowlandson, Jayne Dodd, Graeme Slater, Phil Brwer and their other children Charlotte, Harry and Isaac Burrow.

MartEye

I feel very fortunate to have worked with the well renowned Stardale herd over the past 5 years. As you will witness on the day of the sale, the herd is a credit to the Burrow family and farm staff.

Herd performance

At the time of writing the herd was producing 36L/cow on twice a day milking at 4.14% fat, 3.23% protein and BMSCC 78. The conception rate over the last 12 months has been 43% and the calving interval currently stands at 390 days.

Health information

The herd is actively monitored for BVD through tag testing of calves and quarterly PCR bulk milk testing. The milking herd plus maiden heifers are vaccinated for BVD (Bovela, boosted March 22), IBR (Bovillis IBR, boosted February 2022) and Lepto (Spirovac, boosted February 2022).

Quarterly individual milk testing has demonstrated that the herd has a low prevalence of Johnes disease. There are no red cows present in the herd and the average herd Johnes test value is currently 4.00 which places them in the best 25% of herds.

The farm is located within a low-risk TB area. There has been no history of TB in the time that I have worked with the herd. The next TB test is due to be done on 01/04/2022.

The farm is proactive with calf health and is a member of our practice's calf health monitoring programme. Dry cows receive a calf scour vaccine (Bovigen) and calves are vaccinated against pneumonia (Bovalto Respi 3). Over the last 3 months preweaning daily liveweight gain has averaged 0.82kg/day. Calves born from December onwards have now received their full primary course of lungworm vaccination (Huskvac).

The herd scores very highly in the TSDG dairy health index (currently ranked 2/520 farms). Selective dry cow therapy is utilised on farm; 70% of cows are dried off using teat sealant only, 30% receive dry cow antibiotic therapy (Cepravin DC). Overall antibiotic use in the herd is low (12.1mg/PCU).

Congratulations to the Burrow family and best wishes to all purchasers.

Sam Millward

Oakhill Farm Vets

EXPLANATION OF ABBREVIATIONS AND SYMBOLS

The following abbreviations: ACC- Average Cell Count; LCC- Latest Cell Count; AI- Artificially Inseminated; CC- Heifer Calf; ET- Embryo Transplant; LC- Last Calf; S- Served; sx - Sexed Semen

TYPE CLASSIFICATION SCHEME- Where classifications are abbreviated in the catalogue the following are the abbreviations used:

(Ex)-Excellent; (VG)-Very Good; (GP)-Good Plus; (G)-Good; (F)-Fair; (P)-Poor

METRICATION: All tabulated milk yields are in kilograms.

ENTRY TO SALE PREMISES

All visitors please note that entry to the sale site is at your own risk. No liability whatsoever can be accepted by the vendors or the Auctioneers.

ANIMAL WELFARE

All purchasers please be aware of the implementation of EU Welfare in transport Regulation (EC) No 1/2005 - when hauling livestock.

PAYMENT

Payment must be made in full to the Auctioneers on the sale day. No lots may be removed from the sale premises without an auctioneers pass confirming payment.

Prospective purchasers who have not traded with the auctioneers before are requested to make themselves known prior to commencement of the sale and confirm arrangements of payment.

AGENCY BIDDING

Any customer at the sale bidding as an Agent on behalf of a third party is deemed by the auctioneers to be the purchaser and subject to the terms of the conditions of sale, unless written authority from the person(s) on whose behalf they are bidding is presented to the auctioneers before the sale commences

Telephone Bids: Please note that any potential buyer wishing to bid over the telephone must register with the auctioneers before the sale.

Terms: All purchasers please note that accounts must be settled at the close of the sale.

BREEDING GUARANTEE

All cows and heifers that are stated in the catalogue of sale to have been served not less than ten weeks before the date of sale, or to have been running with a bull between dates (the later of which is not less than ten weeks before the sale) will be guaranteed by the vendor to be in calf either to the date or one of the dates of service if more than one is stated, or to a service between stated running dates and to the bull stated in the catalogue of sale unless any alteration is announced by the Auctioneers at the time of the sale. Should any animal prove not to be in calf, any claim under this guarantee must be made to the auctioneer in writing within 7 weeks of the date of sale. Should any animal which is declared to be in calf prove not to be in calf to the date or one of the dates of service or to some date within the running period or periods or to the bull stated as above any claim must similarly be made immediately any evidence in support of such a claim is available and in any case not later than 28 days after the date on which the animal was due to calve according to the date or dates in the catalogue of sale.

UDDER WARRANTY

Unless otherwise stated or announced, any cow in calf or in milk or any heifer in milk at the time of the sale shall carry a guarantee that she is sound in udder and teats at the time of sale, but no claim under such guarantee can be entertained unless made to the Auctioneers within an hour of the close of the last lot except in the case of Herd Dispersal Sakes or Breeders' Home Sales when the guarantee period is extended to two hours after the close of the sale of the last lot. If the Auctioneers are satisfied that the udder is not sound, then the sale, at the discretion of the vendor, may either be cancelled or an adjustment in the price paid agreed between vendor and purchaser.

NOTE - At Herd Dispersal or Home Breeders' Sales the Vendor must provide adequate facilities for udders to be inspected and for adequate milking facilities to be available for the Purchaser in accordance with the warranty.

DATA PROTECTION

Introduction

The EU General Data Protection Regulation ("GDPR") came into force across the European Union on 25th May 2018 and brings with it significant changes to data protection.

Our Commitment

Norton & Brooksbank Ltd are committed to ensuring the security and protection of the personal information that we process, and to provide a compliant and consistent approach to data protection. We have always had a robust and effective data protection program in place which complies with existing law and abides by the data protection principles. However, we recognise our obligations in updating and expanding this program to meet the demands of the GDPR and the UK's Data Protection Bill.

Norton & Brooksbank Ltd are dedicated to safeguarding the personal information under our remit and in developing a data protection regime that is effective, fit for purpose and demonstrates an understanding of, and appreciation for the new Regulation. Our preparation and objectives for GDPR compliance have been summarised and copies are available from our office upon request.

SALE TO COMMENCE PUNCTUALLY AT 10.30 a.m.

Holding No: 21/002/0019

CIS Herd No: 30113

Date of Last Weigh: 22/3/22

There is nothing better than the opportunity of purchasing great cows from deep and reliable cow families.

We were fortunate enough to have that opportunity and purchase the legend that is Stardale Leader Roxy EX-95-7 LP120 65* in the Stardale Sale in 2006.

With her strength, style and longevity she went on to breed 7 EX daughters including Willsbro Shottle Roxy 3 EX-9-7 LP140 24* who was sold in our 2010 sale back to the Burrow family. Willsbro Shottle Roxy 2 EX-93-2 has continued the legacy here at Willsbro racking up 67 brood stars with proven sons and grandsons in AI, 4 generations milking in various lines, high genomic ranking females and herd favourites such as Willsbro Silver Roxy EX-94-2 (95-MS) 36* LP50, which shows the all round dynamic of this great cow family. Along with the Roxys other families such as the Vaakjes, Vanessas, Megs and Primroses have also prospered here at Willsbro.

So would like to thank the Burrows family for allowing us to purchase great cows and wish them the best of luck with their sale.

New NFU Partnership for Preston, Fylde, Blackburn & Chorley

Jo Oliver, Adam Lovelock and James Diaper are the NFU Group Secretaries for Preston, Fylde, Blackburn and Chorley district and your main point of contact for NFU via the office number 01772 735 798.

Together we are looking forward to seeing the new partnership flourish with 3 of us who collectively have a breadth of experience across all of the sectors we support in the region. We will continue to champion British agriculture and horticulture across a hugely diverse landscape. From the uplands in the East to the black soils and glasshouses in the West and all diversity that falls between.

By means of a brief introduction, Adam and Jo have been the Group Secretaries in Preston together for a number of years and more recently in Blackburn, we both also have previous experience from other groups around the country. James joins the new team from within the network having started his NFU career in Norfolk and some of you may have already met him during his 'caretaker' role in Chorley over the past few months. To complete the business partnership is Jess Rigby who will run the operational aspects of the agencies, she too has many years of experience of working with our farming members initially in Bury, but most recently alongside Adam and Jo at Preston & Blackburn. Collectively we have over 50 years of experience within the agency network.

During the past few years in Preston, we have strived to develop both the local activity and support that we are able to provide to our members, so much so that we have also won several Regional and National awards as a branch - we share this with you for two reasons - we are proud of what we have achieved and what we continue to achieve on behalf of our members, but also to provide you with the reassurance that you are in safe hands and that we very much look forward to developing a similar approach with farmers and growers in the Blackburn and Chorley area.

If you are not already a member of the National Farmers Union but would be interested in learning more about how we can support you please contact us on 01772 735 798.

A visit to the Burrow's Stardale herd always leaves a great impression on any keen Holstein enthusiast. There are few herds that can match their sheer quality, coupled with exceptional pedigree depth. They are really consistent herd cows with fantastic udders and exceptional feet and legs.

Having seen Stardale Bellwood Vaakje 5 as a young cow at a Holstein UK Classification workshop, I asked Robert if she was included in the catalogue for the 2006 milking herd dispersal sale. Robert assured me that she was and I remember him saying, "She's looking tremendous and giving so much milk that I have been milking her again, before I go to bed!" So my father and I travelled up to the sale with the intention of buying her.

We ended up buying 2 ninth generation Excellent Vaakjes, a Gloriette, a Stella and some embryos from Patron Vanessa. All the cows have done exceptionally well for us and have established themselves very well here at Wintersell.

Vaakje 5 was without doubt one of Bellwood's finest daughters anywhere, helped by the strength of the Vaakje bloodline no doubt!! She went on to give 110 tonnes, score EX94 (7 times) and achieve 33 stars as a brood cow. She bred 8 EX and 5 VG daughters by 11 different sires!!, These have in turn bred a further 10 EX and 11 VGs and there will be many more.

This awesome family have amazing udders, great locomotion and milk for fun with 3 descendants giving over 100 tonnes. Stardale Vaakje 158 also scored EX94, gave 90 tonnes and has 2 EX and 5 VG descendants, including a 115 tonne EX94 Shottle.

While the Stella and Gloriette family have left us with some great cows we haven't had many heifer calves to date and the families are still quite limited here.

The Vanessa embryos delivered an EX-92-3 15 * Outside daughter. She too has started a great family with 5 EX daughters, including 2 100 tonne Shottles, 2 Goldwyns and a Palermo. These in turn have left 4 Ex and 9 VG descendants to date.

Our trip to Tunsteads Farm in 2006 was a great success. Despite very limited use of embryo transfer our investments have left a tremendous legacy that we continue to appreciate.

We wish James, Krisha and all the family every success in the next chapter.

John Downing
Wintersell Herd.

CONDITIONS OF SALE

1. The biddings to be regulated by the Auctioneers, in terms of 'guinea' bids and multiples thereof, each guinea to be equivalent to 105 new pence (£1.05); if any dispute should arise, the lot in dispute to be put up again and resold, or the Auctioneers may determine the dispute at their discretion and their decision shall be final. The Auctioneers reserve the right to refuse the bid of any person without being called upon to give a reason for such action.
2. The Purchaser to give his name and dwelling place and pay for all lots at the close of sale. No lot or lots shall be removed from the sale premises until paid for, and pass-out slip obtained from the Auctioneer' clerk.
3. Notwithstanding the foregoing and the following Condition 4 each and every lot shall immediately at the fall of the hammer be considered as delivered and be and remain in every respect at the absolute risk and expense of the respective Purchaser or Purchasers thereof and shall be removed from the sale at the Purchaser's expense within a week of the sale.
- 4.1. If any lot or animal (s) is not paid for in cash under Condition 2 above but payments is made by cheque or other form of negotiable instrument then the animal(s) shall remain the sole and absolute property of the Vendor as legal and equitable owner until such time as all money due to the Vendor has been paid by the Purchaser, Payment shall unless otherwise agreed be made to the Auctioneers and shall not be deemed to have been paid until any cheque or other negotiable instrument has been cleared by the Auctioneers Bankers and the following further provisions contained in Condition 4 shall apply.
- 4.2. The Purchaser acknowledges that he is in possession of the animal(s) as bailee for the Vendor until such time as the animal(s) has been paid for or pursuant to the provisions of Condition 4.1.
- 4.3. The Purchaser undertakes to house any animal on his premises separately from his own and those of any other person and in such a manner which makes them readily identifiable as the Vendor's.
- 4.4. The Purchaser's right to possession of such animal(s) shall cease if he does anything or fails to do anything which could entitle a receiver to take possession of the animal(s) or which would entitle any person to present a petition for the winding up of the Purchaser.
- 4.5. The Vendor or the Auctioneers may for the purpose of the examination or recovery of animals enter upon any premises where they are housed or where they are reasonably thought to be housed.
- 4.6. If the Purchaser shall sell on the animal(s) the entire proceeds shall be held in trust for the Vendor and shall not be mingled with any other money paid into any overdrawn bank account and shall at all times be identifiable as the Vendor's money.
- 4.7. The Purchaser warrants that he is not at the time of entering into any agreement to purchase the animal(s) insolvent and knows of no circumstances which would entitle any creditor to appoint a receiver or to petition for winding up or to exercise any rights over and against the purchaser's assets.
- 4.8. Without prejudice to any other to any right or remedy of the Vendor or the Auctioneers of the Purchaser shall be in breach of any of the conditions set out in this Condition 4 or any of the other conditions herein contained the Vendor or the Auctioneers shall have power to resell the lots retaining any surplus and charging any deficiency or expense to the defaulter or Purchaser.
5. All statements in the catalogue or made by the Auctioneers at the time of the sale, also the identification of the animals, are the entire responsibility of the Vendor. The Auctioneers take no personal responsibility for the correctness of any such statement or identities.
6. All statements made either in the catalogue or any made by the Auctioneers at the time of the sale relating to Tuberculin or any tests to be taken as statements of fact only. No such statement shall guarantee the Purchasers of any animals against loss arising through subsequent reaction of such animal to any test administered after the sale and the Vendors shall not be liable in any way should this occur.
7. Neither the Vendor nor the Auctioneers will be responsible for any accident through fire or any other cause whatsoever, nor for any damage done by animals prior to, during or after the sale.
