FOREWORD

In winning the **Holstein UK Premier Herd Competition in 2022**, Brian and Judith Moorhouse's **Aireburn** herd received due recognition as one of the very best herds in the breed. The Moorhouse family have long had a great reputation in Yorkshire and beyond as breeders of top flight cattle, ever since the late George Moorhouse, who had previously helped to run his father's pedigree Ayrshire herd, registered the prefix in 1969. Tragically in May 2001 the herd had to be slaughtered in the contiguous cull of the foot and mouth disease outbreak, with the exception of a group of forty maiden heifers which were on another farm and not affected. Messrs Moorhouse restocked by purchasing Messrs Dalby's entire **Brimmoor** herd, which were quality cattle of excellent type, and other judicious purchases from leading herds, together with some of the original families remaining after foot and mouth now form the current herd.

As is customary these days Holstein UK hold an open day and celebration on the farm of the winning herd, and as at last year with the previous winners, the Davlea herd, the Aireburn herd is elling an elite selection of some of their very best younger cattle. The catalogue contains 12 calved or close calving heifers of which the 8 so far classified are all Very Good, 23 maiden heifers and calves, and two young bulls which will be ready for use this autumn.

The cattle have been specially selected to show the very best of this outstanding herd, both on pedigree and conformation. **Every animal is out of an Excellent or Very Good cow (20 Excellent)** and nearly all are bred from many consecutive generations of cows in the top two grades. The most numerous family in the herd at present are the **Honeys**, which trace to Miss Sybil Edwards's famous Roybrook W Honey (Ex-95), and there are 9 of this family in the sale. Other well known families catalogued are the **Baby, Bevin, Dellia, Doll, Echo, Edda, Hailey, Miss America, Roxy** and **Trifolium**. The cattle are sired by modern sires, which will be familiar to all students of the breed.

The management is a model of commercial efficiency, with the production of plenty of milk from trouble free cows the main aim. They are cubicle housed in winter and fed on a TMR diet with no feeding in the parlour. Under this system the 200 cows average **10,000kg at 4% (3.25)**, with cell count mostly below 100 in most months of the year.

Visitors to Hesper Farm on August 1st will no doubt enjoy viewing a superb, uniform group of Holsteins, but will also have the opportunity to purchase animals from the very best lines in this prizewinning herd.

HERD HEALTH

The milking herd at Aireburn are vaccinated against IBR.

Lots 1 to 11 have been vaccinated against IBR.

The herd is fully tag tested clear of BVD and monitored for Johnes Disease and there are no Red animals or descendants in the sale.

The Aireburn herd resides in a 4 year testing area. There has never been a reactor on the farm.

All purchasers please be aware of the implementation of EU Welfare in transport Regulation (EC) No 1/2005 - when hauling livestock.

DATA PROTECTION

Introduction

The EU General Data Protection Regulation ("GDPR") came into force across the European Union on 25th May 2018 and brings with it significant changes to data protection.

Our Commitment

Norton & Brooksbank Ltd are committed to ensuring the security and protection of the personal information that we process, and to provide a compliant and consistent approach to data protection. We have always had a robust and effective data protection program in place which complies with existing law and abides by the data protection principles. However, we recognise our obligations in updating and expanding this program to meet the demands of the GDPR and the UK's Data Protection Bill.

Norton & Brooksbank Ltd are dedicated to safeguarding the personal information under our remit and in developing a data protection regime that is effective, fit for purpose and demonstrates an understanding of, and appreciation for the new Regulation. Our preparation and objectives for GDPR compliance have been summarised and copies are available from our office upon request.

AIREBURN MOGUL BEVIN 2 (Ex-94-2, SP)
Bevin Family member

CONDITIONS OF SALE

1. The biddings to be regulated by the Auctioneers, in terms of 'guinea' bids and multiples thereof, each guinea to be equivalent to 105 new pence (£1.05); if any dispute should arise, the lot in dispute to be put up again and resold, or the Auctioneers may determine the dispute at their discretion and their decision shall be final. The Auctioneers reserve the right to refuse the bid of any person without being called upon to give a reason for such action.
2. The Purchaser to give his name and dwelling place and pay for all lots at the close of sale. No lot or lots shall be removed from the sale premises until paid for, and pass-out slip obtained from the Auctioneer' clerk.
3. Notwithstanding the foregoing and the following Condition 4 each and every lot shall immediately at the fall of the hammer be considered as delivered and be and remain in every respect at the absolute risk and expense of the respective Purchaser or Purchasers thereof and shall be removed from the sale at the Purchaser's expense within a week of the sale.
- 4.1. If any lot or animal (s) is not paid for in cash under Condition 2 above but payments is made by cheque or other form of negotiable instrument then the animal(s) shall remain the sole and absolute property of the Vendor as legal and equitable owner until such time as all money due to the Vendor has been paid by the Purchaser, Payment shall unless otherwise agreed be made to the Auctioneers and shall not be deemed to have been paid until any cheque or other negotiable instrument has been cleared by the Auctioneers Bankers and the following further provisions contained in Condition 4 shall apply.
- 4.2. The Purchaser acknowledges that he is in possession of the animal(s) as bailee for the Vendor until such time as the animal(s) has been paid for or pursuant to the provisions of Condition 4.1.
- 4.3. The Purchaser undertakes to house any animal on his premises separately from his own and those of any other person and in such a manner which makes them readily identifiable as the Vendor's.
- 4.4. The Purchaser's right to possession of such animal(s) shall cease if he does anything or fails to do anything which could entitle a receiver to take possession of the animal(s) or which would entitle any person to present a petition for the winding up of the Purchaser.
- 4.5. The Vendor or the Auctioneers may for the purpose of the examination or recovery of animals enter upon any premises where they are housed or where they are reasonably thought to be housed.
- 4.6. If the Purchaser shall sell on the animal(s) the entire proceeds shall be held in trust for the Vendor and shall not be mingled with any other money paid into any overdrawn bank account and shall at all times be identifiable as the Vendor's money.
- 4.7. The Purchaser warrants that he is not at the time of entering into any agreement to purchase the animal(s) insolvent and knows of no circumstances which would entitle any creditor to appoint a receiver or to petition for winding up or to exercise any rights over and against the purchaser's assets.
- 4.8. Without prejudice to any other to any right or remedy of the Vendor or the Auctioneers of the Purchaser shall be in breach of any of the conditions set out in this Condition 4 or any of the other conditions herein contained the Vendor or the Auctioneers shall have power to resell the lots retaining any surplus and charging any deficiency or expense to the defaulter or Purchaser.
5. All statements in the catalogue or made by the Auctioneers at the time of the sale, also the identification of the animals, are the entire responsibility of the Vendor. The Auctioneers take no personal responsibility for the correctness of any such statement or identities.
6. All statements made either in the catalogue or any made by the Auctioneers at the time of the sale relating to Tuberculin or any tests to be taken as statements of fact only. No such statement shall guarantee the Purchasers of any animals against loss arising through subsequent reaction of such animal to any test administered after the sale and the Vendors shall not be liable in any way should this occur.
7. Neither the Vendor nor the Auctioneers will be responsible for any accident through fire or any other cause whatsoever, nor for any damage done by animals prior to, during or after the sale.
