PLEASE BRING THIS CATALOGUE TO THE SALE

FOREWORD

White Carr farm has been home to the Cowell family for well over 100 years with cows being milked here for the entire time. Indeed, Tom Cowell, now in his 89th year, was born at White Carr and continues farming here to this day. For much of this time Tom has been assisted by herdsman David Noblet. David has now been working alongside Tom for over 45 years and Tom would very much like to take this opportunity to express his gratitude for David's loyalty, hard work and expert stockmanship over many decades and into the future. Over many years, what was originally a commercial flying herd has been shaped, by David, into a successful and well known pedigree breeding establishment with the Whitecarr prefix being synonymous with good, hard working, honest cattle. For decades Whitecarr heifers have been sold through Lancaster, Beeston and more recently Gisburn and have become renowned for buyer satisfaction at their respective new homes. Over the years the herd has received numerous accolades and awards both for the cattle and the management. Whitecarr animals feature every year in both the Lancashire Holstein club and NMR awards and it should be noted that current award winners will sell in this dispersal.

This sale will mark the end of an era for the milking operation, but with large numbers of youngstock coming through, David will continue to rear, calve and sell fresh heifers into the future.

Today, the herd numbers around 200 milking cows, run on a strictly commercial basis with the herd being milked 2x daily and housed in cubicles. The herd is grazed during the Summer months with buffer feeding at nights and fed a simple grass & maize based TMR during the Winter alongside parlour cake. The emphasis at Whitecarr has always been to pursue profitable milk from homegrown feeds and with an annual average of 9600kg, a commendable 4500kg of that is achieved from forage. The cows here are not pushed for yield and it should be noted that there is much scope for further production on more intensive systems.

Please view the vets summary in this catalogue to see the herds clean health and TB status.

In summary, this is amongst the most genuine of dispersal sales from the most genuine of vendors. It is a chance for pedigree breeders and commercial milk producers alike to purchase milking cattle and in calf heifers from an old established herd with generations of breeding and top cow families behind them. We very much look forward to welcoming you to White Carr.

VET'S REPORT

This long established pedigree herd have an excellent herd health status maintained in conjunction with Oakhill Veterinary Centre Ltd.

BVD - the herd is fully vaccinated with Bovela BVD vaccine starting as maiden heifers and annual boosters for the adult cows. The herd are registered and monitored under the 'BVDfree scheme'.

Leptospirosis - The herd is fully vaccinated with Spirovac vaccine, starting as heifers and then annual boosters for the adult cows.

IBR – The herd is vaccinated twice yearly with a live marker vaccine and monitored quarterly with bulk milk IBR gE testing.

Johnes – The herd does whole herd NML quarterly individual milk testing and has done for many years. There have been no positives for some years now.

Calf disease – very low incidence of calf disease due to good calf husbandry and the following robust vaccination programmes.

- Pneumonia – calves are given intranasal Bovalto Respi intranasal (RSV/PI3) at day 9 and a course of Bovalto Respi 3 from 2 weeks of age
- Scour - the dry cows are vaccinated with Bovigen Scour (against Rotavirus, coronavirus, E coli) and Bovivac-S (against Salmonella dublin and typhimurium)

TB – the herd are TB free, are in a 4 yearly parish testing area and have never had a case of TB.

Fluke - the cows are treated at drying off.

Worms – the youngstock are treated with Avermectins for gut and lungworm control.

EXPLANATION OF ABBREVIATIONS AND SYMBOLS

The following abbreviations: ABI- Alphabetical Bull Index; ACC- Average Cell Count; AI- Artificially Inseminated; CC- Heifer Calf; ET- Embryo Transplant; LC- Last Calf; S- Served.

TYPE CLASSIFICATION SCHEME- Where classifications are abbreviated in the catalogue the following are the abbreviations used:

(Ex)-Excellent; (VG)-Very Good; (GP)-Good Plus; (G)-Good; (F)-Fair; (P)-Poor

METRICATION: All tabulated milk yields are in kilograms.

ENTRY TO SALE PREMISES

All visitors please note that entry to the sale site is at your own risk. No liability whatsoever can be accepted by the vendors or the Auctioneers.

ANIMAL WELFARE

All purchasers please be aware of the implementation of EU Welfare in transport Regulation (EC) No 1/2005 - when hauling livestock.

PAYMENT

Payment must be made in full to the Auctioneers on the sale day. No lots may be removed from the sale premises without an auctioneers pass confirming payment.

Prospective purchasers who have not traded with the auctioneers before are requested to make themselves known prior to commencement of the sale and confirm arrangements of payment.

AGENCY BIDDING

Any customer at the sale bidding as an Agent on behalf of a third party is deemed by the auctioneers to be the purchaser and subject to the terms of the conditions of sale, unless written authority from the person(s) on whose behalf they are bidding is presented to the auctioneers before the sale commences

Telephone Bids: Please note that any potential buyer wishing to bid over the telephone must register with the auctioneers before the sale.

Terms: All purchasers please note that accounts must be settled at the close of the sale.

BREEDING GUARANTEE

All cows and heifers that are stated in the catalogue of sale to have been served not less than ten weeks before the date of sale, or to have been running with a bull between dates (the later of which is not less than ten weeks before the sale) will be guaranteed by the vendor to be in calf either to the date or one of the dates of service if more than one is stated, or to a service between stated running dates and to the bull stated in the catalogue of sale unless any alteration is announced by the Auctioneers at the time of the sale. Should any animal prove not to be in calf, any claim under this guarantee must be made to the auctioneer in writing within 7 weeks of the date of sale. Should any animal which is declared to be in calf prove not to be in calf to the date or one of the dates of service or to some date within the running period or periods or to the bull stated as above any claim must similarly be made immediately any evidence in support of such a claim is available and in any case not later than 28 days after the date on which the animal was due to calve according to the date or dates in the catalogue of sale.

UDDER WARRANTY

Unless otherwise stated or announced, any cow in calf or in milk or any heifer in milk at the time of the sale shall carry a guarantee that she is sound in udder and teats at the time of sale, but no claim under such guarantee can be entertained unless made to the Auctioneers within an hour of the close of the last lot except in the case of Herd Dispersal Sakes or Breeders' Home Sales when the guarantee period is extended to two hours after the close of the sale of the last lot. If the Auctioneers are satisfied that the udder is not sound, then the sale, at the discretion of the vendor, may either be cancelled or an adjustment in the price paid agreed between vendor and purchaser.

NOTE - At Herd Dispersal or Home Breeders' Sales the Vendor must provide adequate facilities for udders to be inspected and for adequate milking facilities to be available for the Purchaser in accordance with the warranty.

DATA PROTECTION

Introduction

The EU General Data Protection Regulation ("GDPR") came into force across the European Union on 25th May 2018 and brings with it significant changes to data protection.

Our Commitment

Norton & Brooksbank Ltd are committed to ensuring the security and protection of the personal information that we process, and to provide a compliant and consistent approach to data protection. We have always had a robust and effective data protection program in place which complies with existing law and abides by the data protection principles. However, we recognise our obligations in updating and expanding this program to meet the demands of the GDPR and the UK's Data Protection Bill.

Norton & Brooksbank Ltd are dedicated to safeguarding the personal information under our remit and in developing a data protection regime that is effective, fit for purpose and demonstrates an understanding of, and appreciation for the new Regulation. Our preparation and objectives for GDPR compliance have been summarised and copies are available from our office upon request.

SALE TO COMMENCE PUNCTUALLY AT 11.00a.m.

Holding No: 21/235/0043

NMR Herd No: 02/51730/01

Date of Last Weigh: 3.4.24

Up-to-date yields and any additional service or calving details will be posted in two places at the sale, and announced from the rostrum

**The Breeding Guarantee & Udder Warranty

CONDITIONS OF SALE

1. The biddings to be regulated by the Auctioneers, in terms of 'guinea' bids and multiples thereof, each guinea to be equivalent to 105 new pence (£1.05); if any dispute should arise, the lot in dispute to be put up again and resold, or the Auctioneers may determine the dispute at their discretion and their decision shall be final. The Auctioneers reserve the right to refuse the bid of any person without being called upon to give a reason for such action.
2. The Purchaser to give his name and dwelling place and pay for all lots at the close of sale. No lot or lots shall be removed from the sale premises until paid for, and pass-out slip obtained from the Auctioneer' clerk.
3. Notwithstanding the foregoing and the following Condition 4 each and every lot shall immediately at the fall of the hammer be considered as delivered and be and remain in every respect at the absolute risk and expense of the respective Purchaser or Purchasers thereof and shall be removed from the sale at the Purchaser's expense within a week of the sale.
- 4.1. If any lot or animal (s) is not paid for in cash under Condition 2 above but payments is made by cheque or other form of negotiable instrument then the animal(s) shall remain the sole and absolute property of the Vendor as legal and equitable owner until such time as all money due to the Vendor has been paid by the Purchaser, Payment shall unless otherwise agreed be made to the Auctioneers and shall not be deemed to have been paid until any cheque or other negotiable instrument has been cleared by the Auctioneers Bankers and the following further provisions contained in Condition 4 shall apply.
- 4.2. The Purchaser acknowledges that he is in possession of the animal(s) as bailee for the Vendor until such time as the animal(s) has been paid for or pursuant to the provisions of Condition 4.1.
- 4.3. The Purchaser undertakes to house any animal on his premises separately from his own and those of any other person and in such a manner which makes them readily identifiable as the Vendor's.
- 4.4. The Purchaser's right to possession of such animal(s) shall cease if he does anything or fails to do anything which could entitle a receiver to take possession of the animal(s) or which would entitle any person to present a petition for the winding up of the Purchaser.
- 4.5. The Vendor or the Auctioneers may for the purpose of the examination or recovery of animals enter upon any premises where they are housed or where they are reasonably thought to be housed.
- 4.6. If the Purchaser shall sell on the animal(s) the entire proceeds shall be held in trust for the Vendor and shall not be mingled with any other money paid into any overdrawn bank account and shall at all times be identifiable as the Vendor's money.
- 4.7. The Purchaser warrants that he is not at the time of entering into any agreement to purchase the animal(s) insolvent and knows of no circumstances which would entitle any creditor to appoint a receiver or to petition for winding up or to exercise any rights over and against the purchaser's assets.
- 4.8. Without prejudice to any other to any right or remedy of the Vendor or the Auctioneers of the Purchaser shall be in breach of any of the conditions set out in this Condition 4 or any of the other conditions herein contained the Vendor or the Auctioneers shall have power to resell the lots retaining any surplus and charging any deficiency or expense to the defaulter or Purchaser.
5. All statements in the catalogue or made by the Auctioneers at the time of the sale, also the identification of the animals, are the entire responsibility of the Vendor. The Auctioneers take no personal responsibility for the correctness of any such statement or identities.
6. All statements made either in the catalogue or any made by the Auctioneers at the time of the sale relating to Tuberculin or any tests to be taken as statements of fact only. No such statement shall guarantee the Purchasers of any animals against loss arising through subsequent reaction of such animal to any test administered after the sale and the Vendors shall not be liable in any way should this occur.
7. Neither the Vendor nor the Auctioneers will be responsible for any accident through fire or any other cause whatsoever, nor for any damage done by animals prior to, during or after the sale.
