PLEASE BRING THIS CATALOGUE TO THE SALE

FOREWORD

One of the largest and most prestigious Holstein sales in recent years takes place on December 7th when virtually the entire **WOODMARSH** herd is dispersed. Messrs Gould have decided to give up milk production and concentrate on their expanding pedigree Limousin enterprise and the result is the sale of a herd that reaches the very highest standards of pedigree, type and a quite phenomenal level of production. The Goulds were awarded **Holstein UK Master Breeder** status in 2020.

The catalogue, which is quite one of the most impressive to be issued for a sale of this kind in recent memory, contains **over 500 head** in all age groups and must attract the interest of all dairy farmers, both pedigree and commercial. In order that the sale can take place on one day, the only animals retained are a few older cows, those unfit for sale, served heifers carrying Limousin embryos and some of the younger heifers of lesser pedigree that will be retained for the same purpose.

The sale comprises **240 cows and calved heifers, 52 in calf heifers** of which the majority are due between sale day and the end of February, **115 maiden heifers** and heifer calves without dams catalogued and **over 120 A lot heifer calves** under a year old.

Michael Gould, snr and his wife Jean founded the Woodmarsh herd some 50 years ago on their farm at Hutton, near Preston, Lancashire. They soon gained a reputation for good pedigree cattle and surplus heifers sold at the Lancashire Club sales were always keenly sought. In 1995, by which time their son Mick and his wife Katherine were playing a vital role in the herd management, the family decided to expand the business by buying a larger farm and relocated to the current base in Shropshire. At that time the herd numbered 90 milkers, but has now trebled in size.

High production and superior type have always been the main aims, and a study of the catalogue will show how successfully these have been realised. The cows are cubicle housed all the year round, milked three times daily and fed a TMR ration. Under this system the cows have reached an amazing level of production. The current rolling average for over 300 milkers is **13,014kg at 4.51% butterfat and 3.24% protein**. The Bulk Tank test for October was **4.38% (3.28) with an average CC of 147**. Some **fifty sale animals have given yields over 14,000kg, with half a dozen registering over 17,000kg!**

Mick Gould has always believed that to achieve this kind of production, you need animals of superior type, particularly with regard to udders, and this is certainly the case in the Woodmarsh herd. The sale contains **22 Excellent** and **142 Very Good** animals and virtually all the remainder are Good Plus, the majority of those being heifers with the potential for higher scores in the future.

A major focus has been the development of strong cow families and three in particular, the **Zandras, Melodys** and **Lymes**, comprise a major part of the current herd.

The **Zandras** trace to an embryo calf, Woodmarsh Zoey, of American breeding, but imported from Germany. Zoey was the 5th generation to be Excellent and has proved an extraordinary Star Brood cow (89 stars to date), breeding 12 Excellent and 13 Very Good cows as well as a number of high priced bulls, bulls AI and stock bulls in leading herds. The Zandras are without doubt one of the herd's best families and the sale contains many super individuals in all age groups.

The **Melodys** descend from a purchase from the late David Williams, Comely Southwind Melody 2, She classified Ex-93-3, gave over 110 tonnes and started a remarkable dynasty. Over 25% of the catalogue are Melodys and the majority are bred from multiple generations of Ex or VG cows.

The **Lymes** came from a purchase of a Prelude daughter from Andrew Baird's Cleveale herd at the High Flyer Sale at Kirkby Thore in 1995. She also started a long line of highly productive, high type females of whom there are many in the sale.

Other families of renown, although not as numerous, are **Apple, Ashlyn, August, Barbie, Dellia, Doll, Edda, Elegance, Ghost, Gypsy Queen, Hope, Mae, Meggie, Neoma, Ola, Oralie, Paradise, Roxy, Ruth, Sallie, Shower, Sweet** and **Tracy**.

Messrs Gould have never been active in the show ring, with the exception of Mick, who has judged many of the country's leading shows including the National Holstein Show. There are plenty of animals in the sale that could shine in that regard, Previous sales of individuals have produced a National Calf Show winner, two class winning milking heifers at the Royal Show, a Champion milking heifer at the DFE and an All Britain Nominated Heifer. Three heifers sold last year to Richard & Bethan Thomas's Churchvale herd all classified VG as 2 year olds and gave over 10,000kgs.

The Goulds' prowess at breeding bulls has had few equals in recent years, having produced several winners of the Wexham Cup and Champions at the North Western Club Bull Shows & Sales. They usually sold for premium prices making up to 7,500gs (twice), and many of the country's good herds have used Woodmarsh stock bulls. Several very successful bulla have been sold into the Cogent and Genus AI studs including the widely used **Asterix, Lotto, Metallic, Topshot** and **Zoro**.

The breeding policy has been to use high ranking type bulls, with considerable use of sexed semen in recent years, with many animals carrying sexed heifer calves. Principal sires among the milkers are **Alta1stClass, Control, Doorman, Doorsopen, Dorcy, Impression, Mincio, MVP, Secretariat, Sidekick, Silver** and **Unix. Altaspring, Applicable, Cyprus, Pepper** and **Rubicon** feature as sires of the younger heifers, while the majority of the calves are by Dalliance or **King Doc**, who have been extensively used as service bulls, along with **Chief, Rager, Totem** and **Victor**.

There are so many desirable animals in this sale, it is a veritable feast for cattle breeders, and anyone wanting to purchase a good one should be in attendance at Grange Farm or tuned in on Marteye on December 7th.

HERD HEALTH

The Woodmarsh herd is vaccinated against BVD (tagged & tested since 2017 -no positives), Lepto and IBR.

The herd is regularly monitored for Johnes Disease and there are no Red cows in the sale.

The Woodmarsh herd passed a **clear TB test on November 14th 2021**.

Dry cows have been treated with Ubro Red or Bovaclox DC Extra and Orbiseal

EXPORT

With the exception of lots 3,4,5, 194A & 194B, all animals in the sale are eligible for immediate export to Northern and Southern Ireland.

DATA PROTECTION

Introduction

The EU General Data Protection Regulation ("GDPR") came into force across the European Union on 25th May 2018 and brings with it significant changes to data protection.

Our Commitment

Norton & Brooksbank Ltd are committed to ensuring the security and protection of the personal information that we process, and to provide a compliant and consistent approach to data protection. We have always had a robust and effective data protection program in place which complies with existing law and abides by the data protection principles. However, we recognise our obligations in updating and expanding this program to meet the demands of the GDPR and the UK's Data Protection Bill.

Norton & Brooksbank Ltd are dedicated to safeguarding the personal information under our remit and in developing a data protection regime that is effective, fit for purpose and demonstrates an understanding of, and appreciation for the new Regulation. Our preparation and objectives for GDPR compliance have been summarised and copies are available from our office upon request.

BREEDING GUARANTEE

All cows and heifers that are stated in the catalogue of sale to have been served not less than ten weeks before the date of sale, or to have been running with a bull between dates (the later of which is not less than ten weeks before the sale) will be guaranteed by the vendor to be in calf either to the date or one of the dates of service if more than one is stated, or to a service between stated running dates and to the bull stated in the catalogue of sale unless any alteration is announced by the Auctioneers at the time of the sale. Should any animal prove not to be in calf, any claim under this guarantee must be made to the auctioneer in writing within 7 weeks of the date of sale. Should any animal which is declared to be in calf prove not to be in calf to the date or one of the dates of service or to some date within the running period or periods or to the bull stated as above any claim must similarly be made immediately any evidence in support of such a claim is available and in any case not later than 28 days after the date on which the animal was due to calve according to the date or dates in the catalogue of sale.

UDDER WARRANTY

Unless otherwise stated or announced, any cow in calf or in milk or any heifer in milk at the time of the sale shall carry a guarantee that she is sound in udder and teats at the time of sale, but no claim under such guarantee can be entertained unless made to the Auctioneers within an hour of the close of the last lot except in the case of Herd Dispersal Sakes or Breeders' Home Sales when the guarantee period is extended to two hours after the close of the sale of the last lot. If the Auctioneers are satisfied that the udder is not sound, then the sale, at the discretion of the vendor, may either be cancelled or an adjustment in the price paid agreed between vendor and purchaser.

NOTE - At Herd Dispersal or Home Breeders' Sales the Vendor must provide adequate facilities for udders to be inspected and for adequate milking facilities to be available for the Purchaser in accordance with the warranty.

These warranties are only applicable to animals sold for 800gs or over

BULLS

4616 - 142A
 4687 - 78A
 4866 - 19A

CONDITIONS OF SALE

1. The biddings to be regulated by the Auctioneers, in terms of 'guinea' bids and multiples thereof, each guinea to be equivalent to 105 new pence (£1.05); if any dispute should arise, the lot in dispute to be put up again and resold, or the Auctioneers may determine the dispute at their discretion and their decision shall be final. The Auctioneers reserve the right to refuse the bid of any person without being called upon to give a reason for such action.
2. The Purchaser to give his name and dwelling place and pay for all lots at the close of sale. No lot or lots shall be removed from the sale premises until paid for, and pass-out slip obtained from the Auctioneer' clerk.
3. Notwithstanding the foregoing and the following Condition 4 each and every lot shall immediately at the fall of the hammer be considered as delivered and be and remain in every respect at the absolute risk and expense of the respective Purchaser or Purchasers thereof and shall be removed from the sale at the Purchaser's expense within a week of the sale.
- 4.1. If any lot or animal (s) is not paid for in cash under Condition 2 above but payments is made by cheque or other form of negotiable instrument then the animal(s) shall remain the sole and absolute property of the Vendor as legal and equitable owner until such time as all money due to the Vendor has been paid by the Purchaser, Payment shall unless otherwise agreed be made to the Auctioneers and shall not be deemed to have been paid until any cheque or other negotiable instrument has been cleared by the Auctioneers Bankers and the following further provisions contained in Condition 4 shall apply.
- 4.2. The Purchaser acknowledges that he is in possession of the animal(s) as bailee for the Vendor until such time as the animal(s) has been paid for or pursuant to the provisions of Condition 4.1.
- 4.3. The Purchaser undertakes to house any animal on his premises separately from his own and those of any other person and in such a manner which makes them readily identifiable as the Vendor's.
- 4.4. The Purchaser's right to possession of such animal(s) shall cease if he does anything or fails to do anything which could entitle a receiver to take possession of the animal(s) or which would entitle any person to present a petition for the winding up of the Purchaser.
- 4.5. The Vendor or the Auctioneers may for the purpose of the examination or recovery of animals enter upon any premises where they are housed or where they are reasonably thought to be housed.
- 4.6. If the Purchaser shall sell on the animal(s) the entire proceeds shall be held in trust for the Vendor and shall not be mingled with any other money paid into any overdrawn bank account and shall at all times be identifiable as the Vendor's money.
- 4.7. The Purchaser warrants that he is not at the time of entering into any agreement to purchase the animal(s) insolvent and knows of no circumstances which would entitle any creditor to appoint a receiver or to petition for winding up or to exercise any rights over and against the purchaser's assets.
- 4.8. Without prejudice to any other to any right or remedy of the Vendor or the Auctioneers of the Purchaser shall be in breach of any of the conditions set out in this Condition 4 or any of the other onditions herein contained the Vendor or the Auctioneers shall have power to resell the lots retaining any surplus and charging any deficiency or expense to the defaulter or Purchaser.
5. All statements in the catalogue or made by the Auctioneers at the time of the sale, also the identification of the animals, are the entire responsibility of the Vendor. The Auctioneers take no personal responsibility for the correctness of any such statement or identities.
6. All statements made either in the catalogue or any made by the Auctioneers at the time of the sale relating to Tuberculin or any tests to be taken as statements of fact only. No such statement shall guarantee the Purchasers of any animals against loss arising through subsequent reaction of such animal to any test administered after the sale and the Vendors shall not be liable in any way should this occur.
7. Neither the Vendor nor the Auctioneers will be responsible for any accident through fire or any other cause whatsoever, nor for any damage done by animals prior to, during or after the sale.
