## FOREWORD

We are delighted to offer for sale the entire Jacmass Herd for Ric & Vic Massey on Tuesday 9th August. They have been an incredible team having milked cows at Chesham Farm, Brindle since 1969. All this work has resulted in Ric admitting his joints are in his own words “knackered” so the work has fallen on his very long suffering wife, some loyal staff and family to keep the ship afloat.

Their farm is a very productive grassland unit and this has been exploited to the limit, producing high quality silage from top quality leys.

It is no surprise that their cows have great strength and body capacity and have produced large quantities of milk on a no frills system being simple grass based Winter rations together with extensive grazing through the Summer months. All cows are housed in cubicles. Milked mainly by Vic at 12 hour intervals has ensured a high level of old school stockmanship with cows lasting for many lactations.

A succession of stock bulls from John Loftus’s Weeton Herd set the foundations of the herd followed more recently by Denmire sires, one of which is offered in the sale. Although unclassified, these cows carry full pedigree status and will be admired by pedigree and commercial breeders alike.

This is a genuine full dispersal on a family farm and Norton & Brooksbank with Richard Turner & Son look forward to meeting you.

### **Health status**

The herd resides in a 4yr TB area , the farm has never had a case of TB.

The herd is vaccinated for BVD, Lepto & IBR.

All youngstock are vaccinated for ringworm.

All animals are BVD tag & tested.

The herd has been screened for Johnes for many years and is described as extremely low risk. There are no high testing cows in this sale.
