## FOREWORD

Philip Davies has decided to retire from active dairy farming and to disperse his good **CREW HILL** herd of Holsteins. The sale is an extensive one, comprising some **160 cows and calved heifers, 60 heifers due to calve in the autumn and winter months, 60 younger maiden heifers and over 50 A lot heifer calves under a year old.**

Philip has been involved in milking and breeding dairy cows for many years, initially on his father's farm at nearby Alberbury, but registered the Crew Hill prefix in 1985 when he took over a number of animals from that herd to Hill Farm. All the families in the herd trace back to this original source, which had been graded up with the use of well known Holstein bulls such as the MMB sires Linmack, Griffland and Brownred Elevation, Dalesend Cascade and Oak Ridges Performer. The **Estella** family is the most numerous (more than 130 in the sale), but the Antoinettes, Beryls, Bettys, Jeans, Megans and Olives have also performed well.

On an early visit to Canada Philip purchased Hanoverhill Piper as a calf, and he was used extensively in the formative days of the herd. Although some AI has been used, it has been the principal policy to use well bred stock bulls from leading herds. Several of these came from Robert Clare's recently dispersed **Hawksmoor** herd, and **Riverdane Marker ET**, a son of Pine-Tree Sid from Mark Nutsford's Mattia family, left many good daughters. Many of the promising younger cattle are by **Hawksmoor Roden**, **Insight Stormzee** and **Nobold Aristocrat ET**, while at Andrew Birkle's sale in 2020, the superbly bred **Whinchat Sexton ET** was purchased, and he has quite a number of calves in the sale, with many of the cows and heifers in calf to him. He was by All,Nure Secretariat and out of the outstanding 27 Star brood cow Whinchat Shottle Savoire Fare (Ex-96-8, LP110). The pedigree Longhorn bull **Leighton Tango (lot 281)** has also run with the cows to sweep up.

The cows are housed in straw yards, and have in no way been forced for high yields. They are fed predominantly on grass silage, with concentrates in the parlour and currently average **8,034kg** with particularly good components of **4.45% fat and 3.30% protein**. SCC-175 and Bactoscan 21 (April-July 2022). There is little doubt that these cows could achieve a much higher level of production if managed under a different system. The cows have good udders, exceptionally sound legs and feet, and the senior cows are still tremendously youthful in appearance and good for many more lactations. Over the years several cows have given over 100 tonnes, including the two oldest cows in the catalogue. The herd are all classified as heifers and not scored again until fourth calvers or more. However there are **13 Excellent** and **50 Very Good** cows in the sale, with nearly all the remainder Good Plus, and candidates for a higher score in time.

Philip would like to thank all the staff who have worked with him over the years, in particular Hannah Edwards, who has been tremendously helpful in recent years.

In conclusion this is a very well established herd of sound cattle that have not been forced for high yields and are sure to give satisfaction to those who purchase them. Breeders and commercial farmers alike are strongly recommended to attend.

## Health Status

The Crew Hill herd passed a clear TB test on August 4th 2022.

Please see Veterinary Note from Simon Wilson of Cain Farm Vets below.

To Whom it may concern

Cain Farm Vets has been providing Veterinary Services to J.P. and H.M. Davies for the last 3 years. Over that time, it has been a pleasure to work with a team showing such enthusiasm for their pedigree Holsteins.

A stand out feature of this herd is the low prevalence of lameness; lame cows are a rarity here.

Hill Farm vaccinates against BVD Using Bovela, alongside participating in the Wales Gwaredu BVD scheme. The most recent young stock BVD antibody screen this August was all-negative.

The herd vaccinates against Leptospirosis using Spirovac and last vaccinated in August this year.

IBR vaccination has been carried out with Bovillis IBR Live, the next booster is due in December 2022.

The farm has enjoyed TB free status since February 2021.

We are sorry to see this genuine grazing herd disperse. I would like to take this opportunity to wish all potential purchasers the very best luck with their new stock.

Director, Cain Farm Vets

## **BREEDING GUARANTEE**

All cows and heifers that are stated in the catalogue of sale to have been served not less than ten weeks before the date of sale, or to have been running with a bull between dates (the later of which is not less than ten weeks before the sale) will be guaranteed by the vendor to be in calf either to the date or one of the dates of service if more than one is stated, or to a service between stated running dates and to the bull stated in the catalogue of sale unless any alteration is announced by the Auctioneers at the time of the sale. Should any animal prove not to be in calf, any claim under this guarantee must be made to the auctioneer in writing within 7 weeks of the date of sale. Should any animal which is declared to be in calf prove not to be in calf to the date or one of the dates of service or to some date within the running period or periods or to the bull stated as above any claim must similarly be made immediately any evidence in support of such a claim is available and in any case not later than 28 days after the date on which the animal was due to calve according to the date or dates in the catalogue of sale.

## **UDDER WARRANTY**

Unless otherwise stated or announced, any cow in calf or in milk or any heifer in milk at the time of the sale shall carry a guarantee that she is sound in udder and teats at the time of sale, but no claim under such guarantee can be entertained unless made to the Auctioneers within an hour of the close of the last lot except in the case of Herd Dispersal Sakes or Breeders' Home Sales when the guarantee period is extended to two hours after the close of the sale of the last lot. If the Auctioneers are satisfied that the udder is not sound, then the sale, at the discretion of the vendor, may either be cancelled or an adjustment in the price paid agreed between vendor and purchaser.

**NOTE - At Herd Dispersal or Home Breeders' Sales the Vendor must provide adequate facilities for udders to be inspected and for adequate milking facilities to be available for the Purchaser in accordance with the warranty.**

**The Breeding Guarantee & Udder Warranty  
is only applicable to animals sold for 800gns or over**

## **DATA PROTECTION**

### **Introduction**

The EU General Data Protection Regulation ("GDPR") came into force across the European Union on 25th May 2018 and brings with it significant changes to data protection.

### **Our Commitment**

**Norton & Brooksbank Ltd** are committed to ensuring the security and protection of the personal information that we process, and to provide a compliant and consistent approach to data protection. We have always had a robust and effective data protection program in place which complies with existing law and abides by the data protection principles. However, we recognise our obligations in updating and expanding this program to meet the demands of the GDPR and the UK's Data Protection Bill.

**Norton & Brooksbank Ltd** are dedicated to safeguarding the personal information under our remit and in developing a data protection regime that is effective, fit for purpose and demonstrates an understanding of, and appreciation for the new Regulation. Our preparation and objectives for GDPR compliance have been summarised and copies are available from our office upon request.

## CONDITIONS OF SALE

1. The biddings to be regulated by the Auctioneers, in terms of 'guinea' bids and multiples thereof, each guinea to be equivalent to 105 new pence (£1.05); if any dispute should arise, the lot in dispute to be put up again and resold, or the Auctioneers may determine the dispute at their discretion and their decision shall be final. The Auctioneers reserve the right to refuse the bid of any person without being called upon to give a reason for such action.
2. The Purchaser to give his name and dwelling place and pay for all lots at the close of sale. No lot or lots shall be removed from the sale premises until paid for, and pass-out slip obtained from the Auctioneer' clerk.
3. Notwithstanding the foregoing and the following Condition 4 each and every lot shall immediately at the fall of the hammer be considered as delivered and be and remain in every respect at the absolute risk and expense of the respective Purchaser or Purchasers thereof and shall be removed from the sale at the Purchaser's expense within a week of the sale.
- 4.1. If any lot or animal (s) is not paid for in cash under Condition 2 above but payments is made by cheque or other form of negotiable instrument then the animal(s) shall remain the sole and absolute property of the Vendor as legal and equitable owner until such time as all money due to the Vendor has been paid by the Purchaser, Payment shall unless otherwise agreed be made to the Auctioneers and shall not be deemed to have been paid until any cheque or other negotiable instrument has been cleared by the Auctioneers Bankers and the following further provisions contained in Condition 4 shall apply.
- 4.2. The Purchaser acknowledges that he is in possession of the animal(s) as bailee for the Vendor until such time as the animal(s) has been paid for or pursuant to the provisions of Condition 4.1.
- 4.3. The Purchaser undertakes to house any animal on his premises separately from his own and those of any other person and in such a manner which makes them readily identifiable as the Vendor's.
- 4.4. The Purchaser's right to possession of such animal(s) shall cease if he does anything or fails to do anything which could entitle a receiver to take possession of the animal(s) or which would entitle any person to present a petition for the winding up of the Purchaser.
- 4.5. The Vendor or the Auctioneers may for the purpose of the examination or recovery of animals enter upon any premises where they are housed or where they are reasonably thought to be housed.
- 4.6. If the Purchaser shall sell on the animal(s) the entire proceeds shall be held in trust for the Vendor and shall not be mingled with any other money paid into any overdrawn bank account and shall at all times be identifiable as the Vendor's money.
- 4.7. The Purchaser warrants that he is not at the time of entering into any agreement to purchase the animal(s) insolvent and knows of no circumstances which would entitle any creditor to appoint a receiver or to petition for winding up or to exercise any rights over and against the purchaser's assets.
- 4.8. Without prejudice to any other to any right or remedy of the Vendor or the Auctioneers of the Purchaser shall be in breach of any of the conditions set out in this Condition 4 or any of the other conditions herein contained the Vendor or the Auctioneers shall have power to resell the lots retaining any surplus and charging any deficiency or expense to the defaulter or Purchaser.
5. All statements in the catalogue or made by the Auctioneers at the time of the sale, also the identification of the animals, are the entire responsibility of the Vendor. The Auctioneers take no personal responsibility for the correctness of any such statement or identities.
6. All statements made either in the catalogue or any made by the Auctioneers at the time of the sale relating to Tuberculin or any tests to be taken as statements of fact only. No such statement shall guarantee the Purchasers of any animals against loss arising through subsequent reaction of such animal to any test administered after the sale and the Vendors shall not be liable in any way should this occur.
7. Neither the Vendor nor the Auctioneers will be responsible for any accident through fire or any other cause whatsoever, nor for any damage done by animals prior to, during or after the sale.
